
Instructor: Dr. Yunrong Zhu **Office:** PS 328B **Phone:** 282-3819 **E-Mail:** zhuyunr@isu.edu

Course Website: [MOODLE](#) **Office Hours:** TR 2:00 pm - 3:00 pm, or by appointment

Textbook: *Multivariable Calculus*, Eighth Edition, by James Stewart published by Brooks/Cole, 2016. We are going to cover Chapters 12-16 of the textbook.

Prerequisites: MATH 1175 Calculus II (Passed with C- or better).

Course Objectives: Math 2275 is the third course in the calculus sequence (Math 1170, Math 1175 and Math 2275). The main goal of this course is to introduce the students to the techniques of differentiation and integration of functions of several variables. The topics include vector algebra and geometry, multivariable functions, differentiation, optimization, multiple integrals, parametric curves and surfaces, line and surface integral, vector fields, Green's, Stokes', and divergence theorems.

Homework: The homework problems will be posted on [MOODLE](#), and will be collected each week **at the end of Thursday's class**. The written homework must be neatly organized and the arguments should be easy to follow. Arrange the papers in correct order and **staple** all the sheets. **NO later homework is accepted for any reason, and any missing assignment will be 0.** Your three lowest scores will be dropped. Group study and discussion are encouraged, but you *must* write the solution by yourself. To prepare the quizzes and exams, it is critical to be able to fully work the problems by yourself.

Quizzes: In class quizzes will be given throughout the semester. The questions on the quizzes will be based on the homework, textbook examples and problems in the lecture notes. You must be present in the class to take the quizzes, and **NO make-up** will be given for any reason. Your two lowest quiz scores will be dropped.

Exams: There will be three in-class exams with the tentative schedule as follows:

Exam #1: Thursday Sep. 12, On Chapter 12-13

Exam #2: Thursday Oct. 3, On Chapter 14

Exam #3: Thursday Oct. 31, On Chapter 15

The **Comprehensive Final Exam** will be held on **Monday, Dec 9 12:30-2:30 p.m.** You must take the exam at the scheduled time. All these exams will be held in Room PS 303. You are allowed to use one hand-written 3" × 5" notecard (both sides) for all the exams.

Makeup Exams: There will be NO make-up exams. Exceptional and well-documented circumstances will be considered on an individual basis. Any missed exam will be 0.

Calculators: The calculator and other electronic devices are **NOT allowed** in the quizzes and exams. Using such devices or other form of unauthorized materials during an exam amounts to cheating.

Grading: : Students course grade will be based on HW, quizzes, three in-class midterm exams, and the final exam. There will be NO “extra credit” work. The weights are distributed as follows:

15% HW+ 10% quizzes+ 45% Midterm Exams + 30% Final.

A+	93% and above	C	73%–76%
A-	90%–92%	C-	70%–72%
B+	87%–89%	D+	67%–69%
B	83%–86%	D	63%–66%
B-	80%–82%	D-	60%–62%
C+	77%–79%	F	59% and below

CoSE X Grade Policy: In the College of Science & Engineering, a student who earns a failing grade via course work (exams, homework, etc.) and has unexcused absences that total more than 30% of class meetings will receive a grade of “X”.

Academic Integrity and Dishonesty: Academic integrity is expected of all students. Academic dishonesty, including cheating or plagiarism, is unacceptable. The Idaho State University academic dishonesty policy allows an instructor to impose one of several penalties for cheating that range from a warning up to assigning a failing grade for the course or dismissal from the University. ANY use of an electronic device or other form of unauthorized materials during an exam or other assessment will be considered cheating. For more information, see: http://coursecat.isu.edu/undergraduate/academic_integrity_and_dishonesty_policy/.

Extra Help: Do not hesitate to come to my office during office hours or by appointment to discuss a homework problem or any aspect of the course. Free tutoring is available from the Math Center in the Student Success Center, Rendezvous 327 in Pocatello and CHE Room 220 in Idaho Falls. Information is available at <https://www.isu.edu/tutoring/math-center/>.

ADA Policy: Idaho State University is committed to providing equal opportunity in education for all students. If you have a diagnosed disability or if you believe you have a disability (physical, learning, hearing, vision, psychiatric) that might require reasonable accommodation in this course, please contact the Disability Services Center, Rendezvous Building, Room 125 (282-3599) <http://www.isu.edu/disabilityservices> as early as possible.

Concerns: Please feel free report any complaints or concerns about the class to our department chair, Dr. Derryberry (derrdewa@isu.edu, 208-282-4474, PS 318B).
