

ECE 1100 Assignment No. 2

Due: Tuesday, October 10, 2023 (in class)

This is an individual assignment, i.e. you will submit your own work.

Focus on the case study your discussion group covered on September 26th, write a maximum 2-page essay that addresses the pertinent aspects of your chosen case. Alternatively, you may also choose a case of your own from the paper linked below, which was used in the class discussion:

https://www2.cose.isu.edu/~chiustev/courses/ECE1100/51_cases.pdf

Use the following question as a reference to help focus your writing if needed:

*A. How would **you** recognize ethical and professional responsibilities in engineering situations and make informed judgments, while considering the impact of engineering solutions in global, economic, environmental, and societal contexts?*

Again, be as creative as you can, and don't worry about "complete correctness." Feel free to write based on your current understanding of the topic. Use 11-point size font and single line space.

If your essay exceeds 1 page, print the essay out **double-sided** if your printer allows that.
